

Stippling

A series of dots produced by touching the pen nib to the paper, while the pen is held in a vertical position!

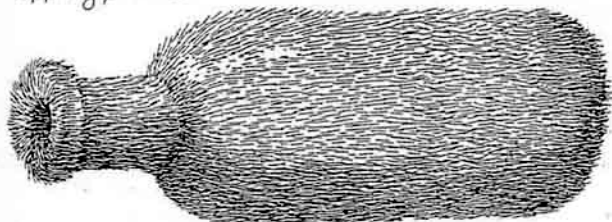

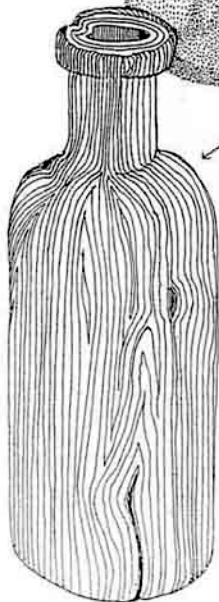

Scribble lines

Sketchy lines which loop and twist about in a loose, whimsical manner. They may be as long or short as desired!

Wavy lines

Lines that are drawn side by side, forming a grain-like rippling pattern.

Crisscross lines

These are hair-like lines which are placed side by side and follow the shape of the object like contour lines, but are allowed to cross and overlap in a random manner.
